REMARKS

This response addresses the restriction/election requirement dated, August 21, 2006.
Currently, claims 1-24 are pending in this application, and stand restricted.

I. Restriction/Election

In the present case the Examiner has required restriction to one of the following patentably distinct inventions: Group I, claims 1-17, drawn to a pharmaceutical agent (class 530, subclass 300); or Group II, claims 18-24, drawn to a method of treatment (class 514, subclass 2). The Examiner finds that restriction is necessary because the method of treatment does not require the pharmaceutical agent of Group I.

The Applicant hereby elects Group I, claims 1-17, for examination on the merits. However, Applicant notes that the withdrawn process claims may be rejoined if the product claims are ultimately found allowable, and the process claims are commensurate in scope.
